

OpenPencil

Logo guidelines

Version 5 · October 2026

Construction

Three primitives on a 2 × 3 grid of equal square cells:
a square stem, a half-disc bowl and a rounded-square foot.
One colour per piece. Rounded corners are half a cell.
The counter is a circle of 0.4 cell with one sharp corner,
centred on the seam so it locks stem and bowl together.
Its sharp corner points down-left, toward the foot: the pencil.

1 Stem (square)

2 Bowl (half-disc)

3 Foot (rounded square)

Colours

Flame
#F5501E
RGB 245, 80, 30

Sun
#FFD43B
RGB 255, 212, 59

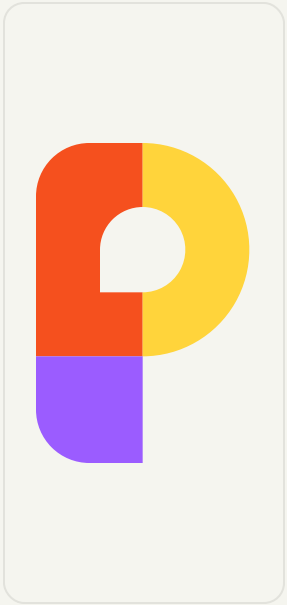

Dusk
#9B5CFF
RGB 155, 92, 255

Ink
#111111
RGB 17, 17, 17

A sunset read top to bottom: flame stem, sun bowl, dusk foot. The dusk foot is the one cool note, the pencil tip.

Flat colour only, no gradients. Ink is for the one-colour mark and the UI icon.

Versions

Colour

Default.

One colour

Single ink, print, small sizes.

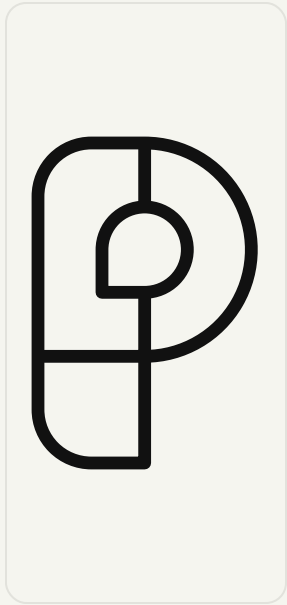

Reversed

On black and dark photos.

Line

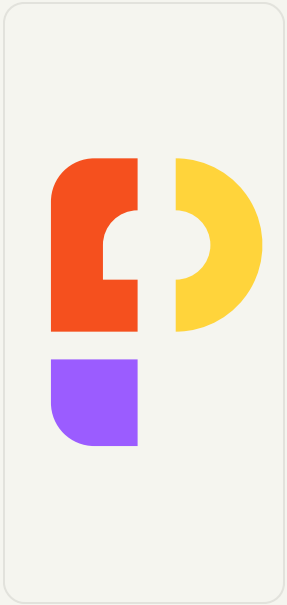

Engraving, signage.

Modular outline

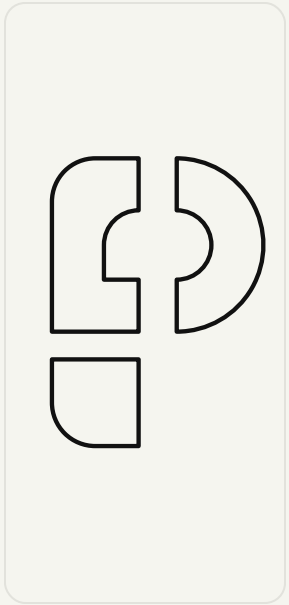

Large sizes only (48 px +).

Modular expressions

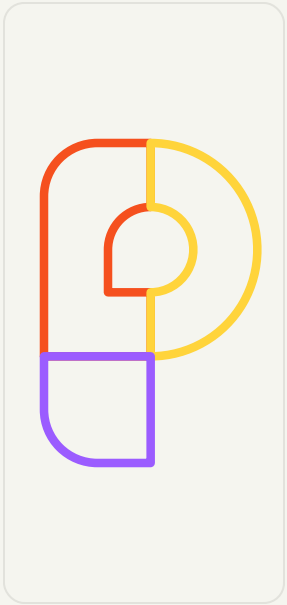

Exploded, colour

The three pieces, pulled apart.

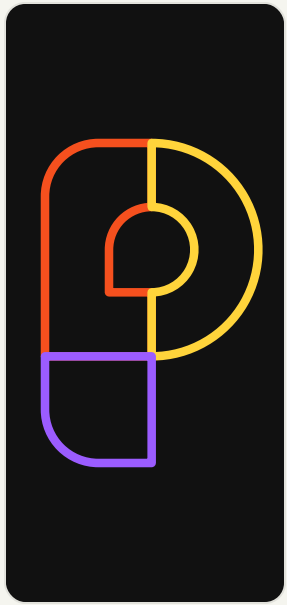

Exploded, line

Construction drawings, docs.

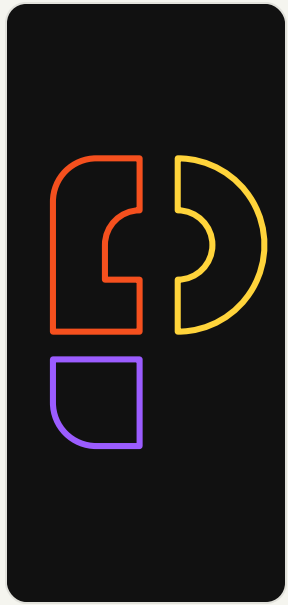

Colour line

Each piece in its own colour.

Colour line on ink

Dark UI, headers, merch.

Exploded colour line

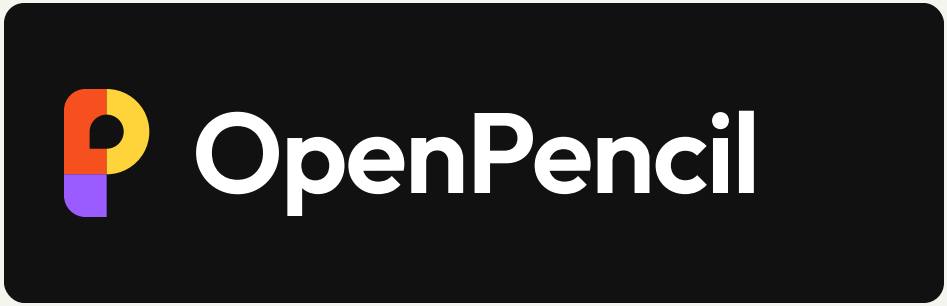

Loading states, motion.

Expressive versions for large sizes (64 px and up): the exploded view shows the modular build; colour line swaps fills for strokes.

Not a replacement for the logo. Never use them as the app icon, favicon or below 64 px.

Wordmark and lockups

Horizontal: mark 1.6 x cap height, gap half the mark width.

Stacked, for square spaces.

Wordmark only.

Outfit SemiBold (600), letter-spacing -2%. Outlined to shapes in every lockup file.

Use the horizontal lockup by default; the mark alone where the name is already present.

Backgrounds

Do

Bare on white

Bare on black

White tile

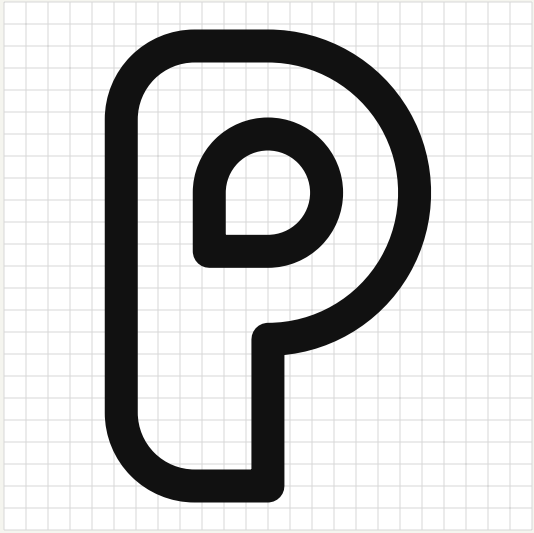

Full bleed

Ink tile: default app icon and favicon, it reads on light and dark tabs. White tile as an alternative. Full-bleed square for iOS and Android masks.

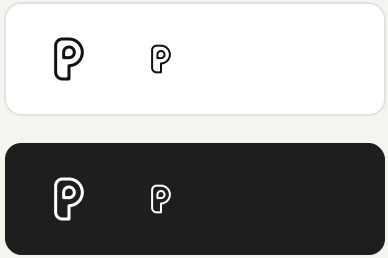

Favicon files: favicon.ico (16, 32, 48), favicon.svg, apple-touch-icon.png (180), icon-192.png, icon-512.png.

UI icon

24 px grid, 1.5 px stroke, round joins.

Uses currentColor: it inherits the UI text colour.

In a toolbar at 24 and 16 px.

Modular outline: 48 px and up only.

Clear space, size and misuse

Clear space

Keep half a module free on every side
(a quarter of the mark's width).

Minimum size

Colour mark: 24 px tall.
One colour and UI icon: 16 px tall.

Don't

× Recolour or swap the three pieces.
× Add gradients, shadows or outlines to the colour mark.
× Rotate, stretch or skew the mark.
× Fill the counter or close it up.
× Place the bare colour mark on flame, sun or dusk.
